

WHAT IS LITTER?

Seems familiar? That's Litter!

WHAT ABOUT PLASTIC POLLUTION?

When someone litter plastics around, that's Plastic Pollution!
These plastics can hang around in our environment for decades until they start to degrade.

A SOLUTION AGAINST PLASTIC POLLUTION

Our Pokey is 100% biodegradable after the pre-programmed timeframe. Designed to be oxidized if it escapes to the open environment, where oxygen is abundant. It will then be digested by micro-organisms and be fully biodegraded into carbon dioxide, water and biomass. No toxic residues or microplastics will be left.
